

For Oiled Floors

Characteristics

This floor milk builds up a water-repellent and dirt-resistant protective film and creates refreshing, fine satin glossy surface. Oiled wooden floors are protected against dirt, humidity and daily stress.

Application

Shake well before use. Remove persistent dirt prior to application. Add 100ml CLOU Floor Care to 1 Litre of water and wash floor using a well wrung-out and lint free cloth. Consistent long-term protection is guaranteed after drying.

Do not wipe floors with clear water after application.

Leave freshly oiled floors to dry for at least 14 days before applying Clou Floor Care for initial care

Safety precautions

Keep out of the reach of children. Do not drain into the groundwater or sewage system. Seal bottle properly after use. Store in a cool place

For Varnished Floors

Characteristics

This high quality care product cleans hygienically, cares effectively and in depth, and protects from dirt and humidity. Suitable for varnished and sealed floors and wooden stairs, as well as cork, PVC and plastic coatings.

Application

Shake well before use. Remove persistent dirt prior to application. Add 250ml CLOU Floor Care to 10 Litre of water and wash floor using a well wrung-out and lint free cloth. Consistent long-term protection is guaranteed after drying, therefore polishing is unnecessary.

Safety precautions

Keep out of the reach of children. Do not drain into the groundwater or sewage system. Seal bottle properly after use. Store in a cool place
